# A high quality specification, hand-picked to meet all the needs of a modern lifestyle

Every Eden home comes with high quality fittings as standard, but we do appreciate that when buying a new home, you will want to make it your own.

With that in mind, we offer purchasers the option to choose from several styles and colours of kitchen units in addition to kitchen flooring. In all wet rooms (subject to build stage), there is also a choice of wall tiles and flooring.

Furthermore, depending on where your home is in the building process, why not take the chance to upgrade from a range of fabulous extras that we are able to offer?

Please check with Lex Allan Grove at the point of enquiry as to what choices are available.

Whilst every care has been taken to ensure the accuracy of the information set out in this specification, Eden Properties (Midlands) Ltd reserves the right to alter, vary and amend it at any time. We therefore recommend that it should only be considered as a guide.

## About Eden Homes

A commitment to quality and a dedication to detail is the simple rule that has seen Eden Homes grow from strength to strength since being founded in 2001. We are a family owned business specialising in providing bespoke housing projects. We are not bulk builders; we have always wanted to remain a niche developer of quality homes, with tailored designs and superior construction, so that every home we build has its own stamp of individuality to suit its location.

From site finding and land assembly, through the planning and construction stages and on to the sale of finished homes, the expertise within our team enables us to carry out the full range of property development functions.

This makes Eden Homes unique and allows us to outshine our competitors.

We have a talented house building team, which includes in-house planning professionals who have a very close working relationship with our architects. The planning and development process can often be complex and time consuming but we have the skills and experience to better appreciate all the issues that need to be taken into account. Over the years this has enabled us to work effectively with local authorities to bring forward developments more quickly or to secure developments where others have failed.

Our construction division works with a small, well established team of highly skilled tradesman who have proven their worth over a number of years and who take great pride in their workmanship, crafting homes to our exacting standards.
